Student's Signature \_\_\_\_\_ Date \_\_\_\_\_

*By my signature I agree to release the medical information contained on this form to Prescott College instructors and staff who are involved in caring for my health and well being.*

**To be completed by medical professional.**

**Prescott College Wilderness Course Information for the Medical Professional** Some Prescott College courses take place in remote areas where evacuation to medical facilities may take more than a day. Many students entering the Resident Degree Program at the College participate in a Wilderness Orientation course. There are many other field courses students choose to enroll in and this medical history information is used for them as well. What follows is a general description of what a student might encounter on a course involving wilderness expedition travel.

Weather conditions can vary with temperatures ranging from 0° F to +100° F. Storms, high winds, intense sunlight, and immersion in cold water are possible. Physical demands on the applicant may include carrying a backpack weighing between 55-70 pounds over uneven terrain such as rocks, boulders, snow, fallen logs, or slippery surfaces as well as ascending and descending steep slopes. Elevations can range from 2,000 to 8,000 feet.

While participating in a wilderness expedition course, students sleep outdoors and experience long physically demanding days. Each student is expected to take care of him or herself. Students may have the option to fast without food, for up to 3 days while participating in a solo experience.

Prescott College disinfects all wilderness water with iodine, chlorine, chlorine dioxide or by boiling. *Not all of these methods are effective against cryptosporidium. Immunocompromised people may wish to obtain an appropriate water filter for these courses.*

Prior physical conditioning and an enthusiastic mental attitude are a necessity. Students find an expedition-based course such as Wilderness Orientation to be a demanding experience both physically and emotionally. It also has the potential to be tremendously rewarding.

In the interest of the personal safety of both the applicant and the rest of their group, please consider the questions carefully when completing this medical history form. A "Yes" answer does not automatically cancel a student's enrollment in a wilderness expedition course. If there are any questions about the student's capacity to successfully complete a course, the student will be contacted to discuss their situation. Return the completed application to: Prescott College Admissions, 220 Grove Avenue, Prescott, Arizona 86301, Fax (928)776-5242, Phone (928) 350-2100

**Complete information will expedite the review of this form.**

Physician, F.N.P. or P.A. \_\_\_\_\_

Check YES or NO for each item. Each question must be answered. Provide date and details for all YES answers.

**General Medical History**

*Does the applicant have a history of:*

1. Respiratory problems? Asthma?  YES  NO If YES, is the asthma well controlled with an inhaler?  YES  NO

If YES, have the student bring inhaler(s) with them for their course.

What triggers an attack? Last episode? Ever hospitalized? \_\_\_\_\_
